

Collaboration for Education! Help NOAA and NPS Create Education Programs

Project Title	Collaboration for Education! Help NOAA and NPS Create Education Programs
Project Summary	Assist NOAA's Florida Keys National Marine Sanctuary and Dry Tortugas National Park create joint educational programming including lesson plans, field guides, and activity booklets.
Country	United States
Country/Region of Focus	United States

Project Description

The Florida Keys are protected by multiple federal agencies, including NOAA and the NPS. In particular, Florida Keys National Marine Sanctuary and the Dry Tortugas National Park work very closely staffing a joint visitor center, providing community outreach, and offering field trips to school groups. Our agencies are requesting a virtual intern to assist with the creation of lesson plans suitable for collaborative learning between our two sites. This intern will assist with the creation of lesson plans to be utilizing during school field trips, field activities for visiting school and summer camp groups, as well as creation of an activity booklet similar to the popular NPS Jr Ranger program.
